CORE SKILLS

Software Development

- Programming Languages – JavaScript, Java, Python, TypeScript
- Frontend Development – React, Next.js, HTML, CSS
- Backend & Application Logic – Full-stack web development fundamentals
- API Development – REST-based systems
- Database Management – MySQL
- Version Control – Git, GitHub
- Project Management – Jira

DevOps

- CI/CD Pipelines - GitHub Actions
- Linux Fundamentals

PROFILE

Driven and motivated Software Engineering undergraduate with a strong foundation in full-stack web development. Proficient in building responsive and scalable web applications using modern technologies such as React and Next.js.

Experienced in developing real-world projects including client-based systems and web platforms. Passionate about solving real-world problems through technology and continuously expanding knowledge in software engineering and modern development practices.

Seeking opportunities to contribute to impactful projects while further developing technical and professional skills.

EDUCATION

BSc(Hons) in Computer Science

University of Westminster affiliated with IIT

2024 - PRESENT

- Software Development I
- Mathematics for Computing
- Trends in Computer Science
- Computer System Fundamentals
- Software Development II.
- Web Design and Development
- Object Oriented Programming
- Database Systems
- Server-Side Web Development
- Algorithms: Theory, Design and Implementation

Informatics Institute of Technology

2023 - 2024

- Foundation Certificate in Higher Education

S. Thomas' College - Mount Lavinia

2014 - 2023

School Education

- GCE A/L - 2022(2023)

Highlands College – Maharagama

School Education

- GCE O/L - 2019

PROJECTS

CorpoVinculo

corpovinculo.com

- Designed and developed a multi-tenant event and sponsorship management platform using NestJS, Next.js, and PostgreSQL.
- Implemented backend APIs and frontend dashboards enabling event organizers to manage sponsors, outreach, and event data across multiple organizations.
- Integrated AI-powered features using Gemini APIs to support intelligent data processing and automation workflows.
- Deployed services using Cloudflare Workers and Cloudflare R2 and implemented state management using Redux and TanStack Query.

Key Areas: Full-Stack Development, React, Next.js, System Design

SOFT SKILLS

Problem Solving & Critical Thinking

Ability to analyze and breakdown technical challenges and develop efficient solutions.

Collaboration & Teamwork

Experienced in working with cross functional teams and knowledge sharing.

Communication

written and verbal communication skills.

Leadership & Project Management

Led multiple projects, overseeing development, deployment and team coordination.

Adaptability & Continuous Learning

Quick to learn and apply new technologies, frameworks, and methodologies.

Time Management & Productivity

Ability to efficiently prioritise tasks, manage deadlines and balance multiple projects

Creativity & Innovation

Brings creative problem-solving and innovative thinking to projects.

LANGUAGES

English

Sinhala

Online Food Ordering System (Real Client Project)

- Developed a full-stack web application for a restaurant using Next.js
- Implemented user authentication to manage customer accounts securely
- Integrated a payment gateway to enable seamless online transactions
- Designed an intuitive interface for browsing menus and placing orders

Key Areas: Full-Stack Development, Next.js, Authentication, Payment Integration, UI/UX

Inventory Tracking Application

- Built a web-based inventory management system using React
- Implemented features to track, update, and manage stock efficiently
- Designed user-friendly interfaces for handling inventory operations

Key Areas: Frontend Development, React, State Management, CRUD Operations

Save Marine Life Website

- Developed a responsive awareness website focused on marine conservation
- Built using HTML, CSS, and JavaScript with multiple interactive pages
- Designed to educate users and promote environmental awareness

Key Areas: Web Development, HTML, CSS, JavaScript, Responsive Design

CERTIFICATIONS

- Java Essential Training – LinkedIn Learning
- Learning TypeScript – LinkedIn Learning
- React Essential Training – LinkedIn Learning
- Agile Workshop – Leo Club IIT
- Python for Beginners – University of Moratuwa
- Web Design for Beginners – University of Moratuwa

For the latest certifications, visit my LinkedIn Licenses & Certifications section.
